

EBITS offers students the opportunity to gain authentic workplace experience in a professional business environment while completing qualifications and practical structured work experience in business or tourism.

Located onsite at Boyne Smelter Limited (BSL) the **EBITS Program** provides an alternative education pathway for Year 10, 11 and 12 students in the Gladstone region who want to gain experience in an authentic business environment. The EBITS office space is located amongst BSL professional suites, allowing access to BSL staff and BSL work experience opportunities and project support. EQIP students are provided opportunities for involvement in authentic workplace learning, active involvement in the community, and practical hands-on training aligned to the chosen career pathway.

Choose your career pathway

BUSINESS

Gain practical office administration skills while training in a professional authentic business environment. Students have opportunities to complete an enterprise project aligned to the business career pathway.

- Year 10 Certificate II in Business (new students)
- Year 11 Certificate III in Business (continuing or new students)

TOURISM

Develop tools and knowledge to begin a career in the tourism and travel industry. Students are equipped with relevant knowledge and skills and are exposed to authentic workplace learning opportunities in the local community. Year 12 students participate in an excursion based around Tourism and Travel to gain a deeper knowledge of the industry.

- Year 10 Certificate II in Business (new students)
- Year 11 Certificate III in Business (continuing or new students)
- Year 12 Certificate II in Tourism and Active Volunteering (continuing or new students)

Develop valuable behavioural skills

Year 10 EBITS students participate in the EQIP Career Development Program designed to better prepare students for recruitment and selection, future employers and the workforce in general.

Career Development Program

Year 10 students are provided opportunities to develop and test skills in the following competency areas:

- Communication
- Planning and organising
- Initiative
- Teamwork
- Problem Solving
- Safety Awareness
- Time Management
- Technology
- Work and Learn Independently
